In acclaimed graphic novelist Tom Gauld's first picture book for children, a little wooden robot embarks on a quest to find his missing sister-- making for a memorable contemporary bedtime story.

For years, the king and queen tried desperately to have a baby. Their wish was twice granted when an engineer and a witch gave them a little wooden robot and an enchanted log princess. There's just one catch, every night when the log princess sleeps, she transforms back into an ordinary log. She can only be woken with the magic words *Awake, little log, awake.*
